## How to Log In:

- Type in your Stevenson e-mail address, which is the first six letters of your last name and last number of your graduation year. For example, Steve Patriot (Class of 2014) would type: spatrio4@students.d125.org
- Your Naviance password is the same as your 8-digit student network password.
- You are encouraged to change this password after your initial log-on to Naviance.
- You are also encouraged to use the e-mail address that you plan to use on your college applications.

## About Naviance

Naviance is an online tool to assist Stevenson students with college planning. Once logged on, students will find numerous functions to help them with the college search and selection process:

- **My Game Plan** helps focus your college search by asking a series of questions that you may not have yet considered about college. Knowing more about yourself will help you find schools that fit. This insight can further assist your counselor in helping you develop a game plan to achieve your goals.
- **College Search** enables you to create a target list of schools in terms of size, location, major, etc. from a pool of more than 3,600 schools. (This feature is active only for student accounts.)

The averages below are for students from your high school that have been accepted to that particular college.

School averages are displayed in green when your number is higher and in red when your number is lower.

Your PSAT score, if available, has been converted to the equivalent SAT score and compared to the average single SAT score of an accepted student. Your PLAN score can also serve as a direct estimate of your ACT score and can be compared to the average ACT score of an accepted student.

The column labeled "Accept" shows the number of students accepted out of the number of students that applied.

Career clusters are a way of grouping careers with common features and skills. Careers grouped into the same cluster typically require similar education and training. Exploring clusters can be a useful way to find a good career match, especially if you have general areas of interest but are not sure what specific careers match those interests. Career clusters can also help you better understand how your coursework in school can prepare you for certain types of careers.

## Overview

There are thousands of challenging educational and training opportunities within the high-skilled world of Business Management and Administration. Learners need a solid background in math, science and technical skills. Education and training can be obtained in high schools, technical colleges, two-year community colleges, four-year colleges and career technical schools/institutes.

Along the way, career guidance professionals assist learners in assessing their educational goals, interests, abilities and skills to facilitate a good match to the cluster's many pathway options. Learners participate in relevant educational opportunities framed in the context of the cluster. They gain knowledge and skills through coordinated workplace learning experiences such as site visits, job shadowing and internships. If they choose, they may achieve valuable skill certifications that lead to employment. Colleges and universities offer advanced degrees and industry certifications that prepare learners for professional and technical careers.

The Business Management and Administration Cluster prepares learners for careers in planning, organizing, directing and evaluating business functions essential to efficient and productive business operations. Career opportunities are available in every sector of the economy and require specific skills in organization, time management, customer service and communication.

## Employment Outlook

Nearly half of all jobs are in managerial and professional occupations, and nearly one-fourth of all workers are self-employed. The business management and

Your strongest interests are in **green**. You can think about your interests as work activities you like to do. Your interests can help you find occupations you might like to explore. The more an occupation meets your interests, the more likely it is to be satisfying and rewarding to you.

Are you ready to explore the occupations that match your interests? Just click the button below.

[View Matching Occupation List](#)

### Definitions

**Realistic:** Realistic occupations frequently involve work activities that include practical, hands-on problems and solutions. They often deal with plants, animals, and real-world materials like wood, tools, and machinery. Many of the occupations require working outside, and do not involve a lot of paperwork or working closely with others.

**Investigative:** Investigative occupations frequently involve working with ideas, and require an extensive amount of thinking. These occupations can involve searching for facts and figuring out problems mentally.

**Artistic:** Artistic occupations frequently involve working with forms, designs and patterns. They often require self-expression and the work can be done without following a clear set of rules.

The careers listed below match your choices in the Career Interest Profiler. The **bolded careers** are your best matches. The careers are broken out by job zone, from "Little or No Preparation" to "Extensive Preparation." Click the question marks to learn more about the job zones.
